**Business Review** 

### Our Subscriber Base — 30 June 2012

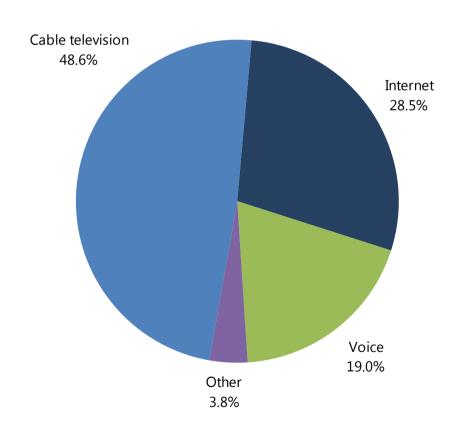

<sup>(\*)</sup> Include 89,600 premium channel RGUs, 12,600 IPTV RGUs and 230,300 DTV RGUs

<sup>(\*\*)</sup> Include 24,500 indirect voice RGUs and approximately 600 payphones

#### **Product offering**

- → We have a fully-developed up-to-date and innovative product offering which continues to be expanded in line with technological advance
- → Our products comprise primarily:
  - CATV (analogue TV, IPTV, DTV, premium channels, VoD, PC streaming)
  - Internet (broadband, broadband DSL, Wi-Fi, Wi-Max, mobile)
  - Telephony (VoIP, PSTN also digital, new hybrid WiFi/GSM mobile service, NDS/CPS, value-added services)
- → We have already achieved our target revenue structure and continue to expand each segment

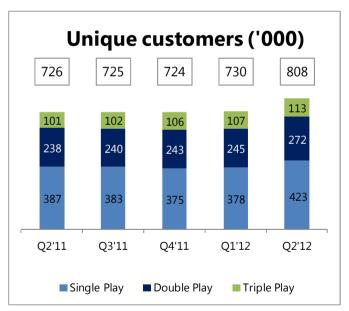

#### H1 2012 revenue breakdown

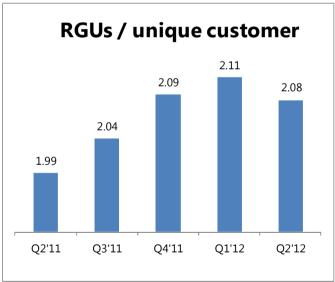

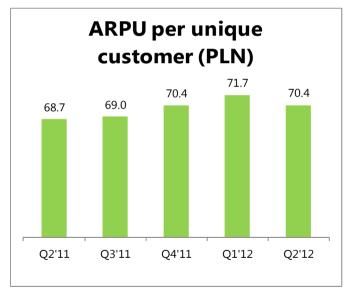

### **Subscribers and ARPU**

- Due to successful bundling of services, we continue to grow our ARPU per unique customer. The drop in Q2 2012 is attributable exclusively to the acquisition of Stream Communications
- RGU per unique customer was 2.11 in Q1 2012 and 2.08 in Q2 2012 (due to consolidation with Stream)

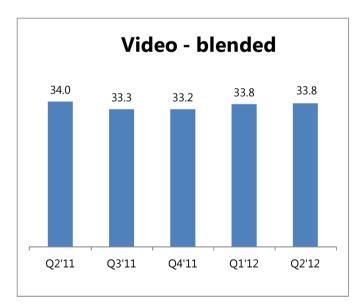

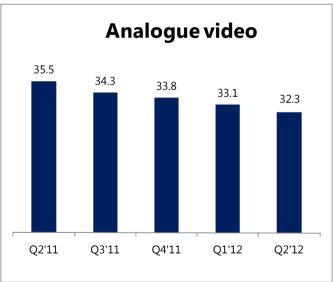

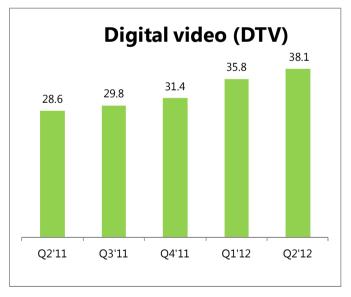

### **ARPU per RGU —video services**

- As previously mentioned, we have modified our approach to promoting the DTV product; hence, DTV ARPU is now on a steep rise
- Our analogue video customers are eagerly migrating to DTV
- Please note that our ARPU figures are affected by recent acquisitions (Media Operator in Q2 2011 and Stream in Q2 2012)

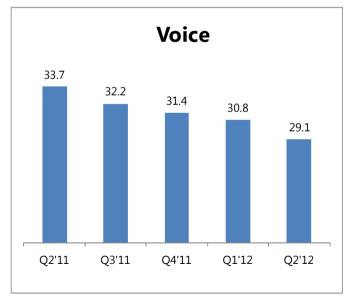

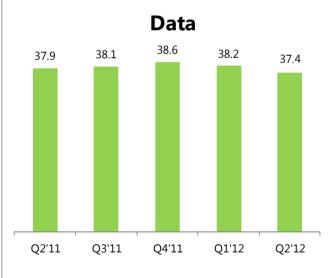

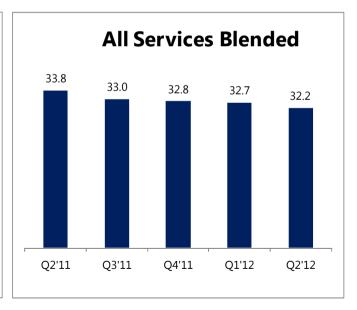

### ARPU per RGU —voice and data

- **VoIP**: Although ARPU on the service decreased further in Q2 2012, positive net additions of VoIP users nearly offset the impact of declining VoIP ARPU on VoIP revenues. We strongly push VoIP sales through bundled offerings.
- **PSTN**: In a long-term perspective like other market players we are seeing a decline in PSTN customers and ARPU.
- **Broadband**: ARPU dips slightly; however, stable and vibrant additions of broadband users translate into solid revenue growth.

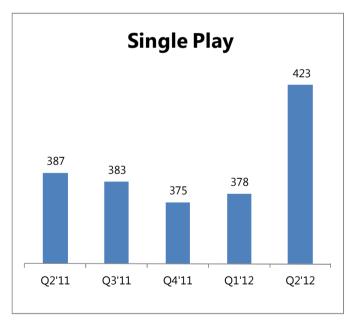

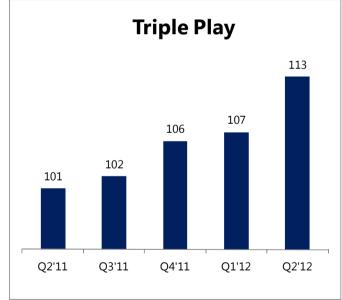

#### **Customer Base Structure**

- In line with our strategy, we have been moving away from single play and towards double and triple play and we fully expect this trend to continue going forward
- The steep rises in all customer categories in Q2 2012 are attributable to the consolidation of Stream effective as of May 2012; we believe that 1- and 2-play customers can soon be upgraded to higher service multiples

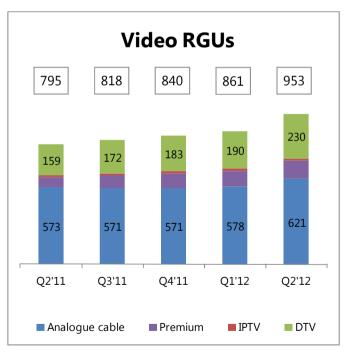

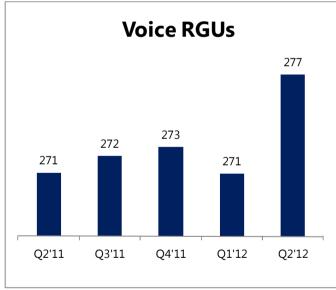

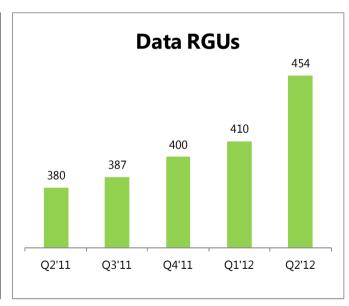

**Note:** The rise in Q2'11 is attributable to consolidation of Stream Communications

### **Growth of Customer Base**

 Stable growth of Revenue Generating Units quarter on quarter in all segments owing to the consolidation of Stream as well as organic growth

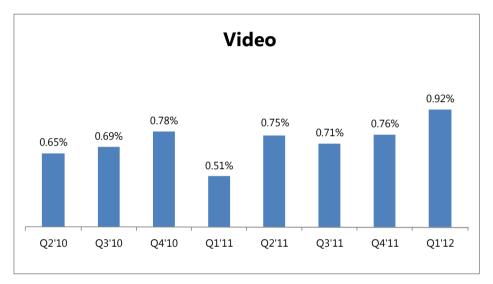

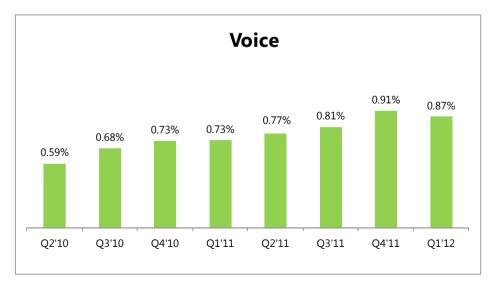

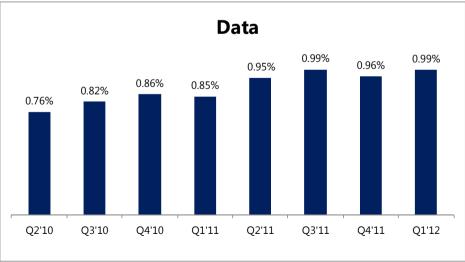

All data in thousands

- Reducing churn continues to be one of our strategic objectives
- We believe attractive products and pricing are the key to success alongside high quality of both services and customer care

**Financial Review** 

## **Revenue Structure Quarterly**

- DTV revenues continue to grow in line with RGU additions, also coming from the acquisition of Stream
- Internet revenues grow thanks to dynamic additions of broadband subscribers (incl. Stream)
- The impact of vibrant additions of VoIP subscribers on our voice revenues to some extent offsets the decline in WLR and indirect voice subscribers and revenues; however, ARPU on cable telephony is seeing steep erosion due to aggresive promotion of bundled services

| Revenues (PLN '000) | Q2 2011 | Q1 2012 | Q2 2012 | y-o-y<br>% change | q-o-q<br>% change |

## **Operating Expenses Quarterly**

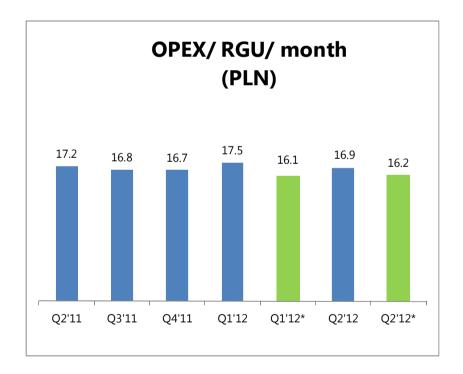

- The structure of our quarterly expenses fluctuates considerably as a result of significant one-off events. It is our strategic goal, however, to keep the overall change in operating expenses in line with our revenues (excl. one-offs)
- Significant non-recurring costs of H1 2012 (c. PLN 4m) involved the cost of our strategic audit (c. PLN 3m). Those costs are disclosed under 'professional services' as well as 'other expenses'
- Programming and copyrights, S&M, and network costs went up partly as a result of the acquisition of Stream

| Expenses (PLN '000)        | Q2 2011 | Q1 2012 | Q2 2012 | y-o-y<br>% change | q-o-q<br>% change |

# **Operating Expenses Quarterly**

- In Q1 2012, the ratio should be adjusted to exclude non-recurring events (2011 cost adjustment) and should be PLN 16.1 instead of PLN 17.5
- Also in Q2 2012, the ratio should be again adjusted for one-off events (strategic audit, settlement etc.) and should be PLN 16.2 instead of PLN 16.9

### **Operating Expenses Year-on-Year**

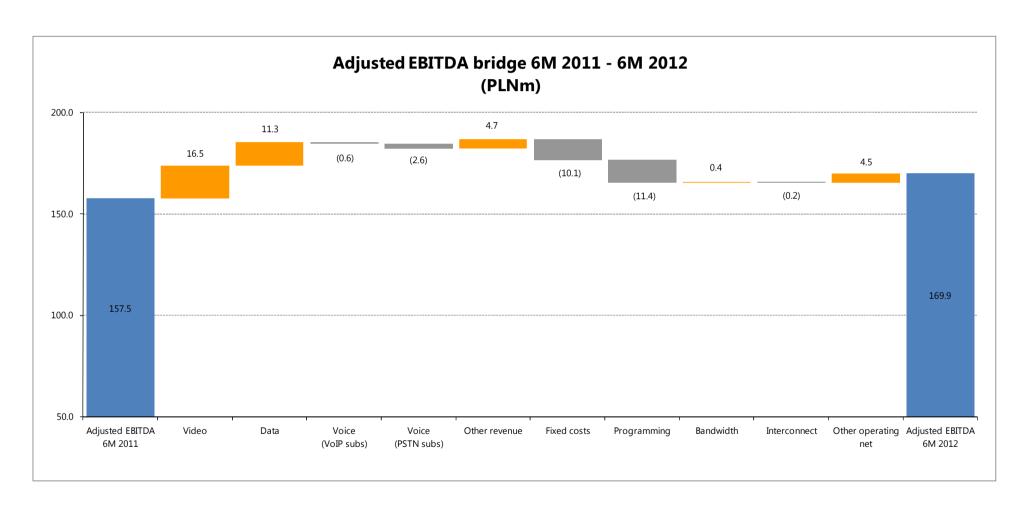

- Our programming costs went up on the back of vibrant additions of digital subscribers, also from Stream Communications, and changes to programming content
- The rise in network costs was connected with higher cost of service of backbone equipment and energy for our networks
- The surge in professional services and other expenses was related to our strategic audit
- In H2 2011, we will continue our conservative cost control policy to keep the overall change in operating expenses in line with our revenues

# **EBITDA Bridge**\*

(\*) Adjusted: operating profit plus depreciation and amortization less one-off non-cash items

### **Income Statement Year-on-Year**

- The net income was adversely impacted by high finance costs
- It was further impacted by one-off costs connected with our strategic audit and a settlement pertaining to some networks acquired by us. Those two cost items totalled PLN4m
- We also had a higher effective tax rate on our gross profit due to changes in deferred tax that were connected with some differences between the carrying value and the tax value of our non-current assets, loans and borrowings and debt securities issued by us
